AUSTRALIAN JOURNAL OF CHEMISTRY

VOLUME 22

MELBOURNE
1969

AUSTRALIAN JOURNAL OF CHEMISTRY

Published by the Commonwealth Scientific and Industrial Research Organization. Issued monthly, $A4 per annum.

BOARD OF STANDARDS

The Board of Standards for this Journal is appointed by the Commonwealth Scientific and Industrial Research Organization and the Australian Academy of Science and consists of Professor J. S. Turner (Chairman), Mr. A. E. Scott (Editor-in-Chief), Professor C. M. Donald, Dr. S. D. Hamann, Professor C. B. O. Mohr, and Professor G. H. Satchell.

ADVISORY COMMITTEE

Acceptance of papers for this Journal is in the hands of an Advisory Committee appointed by the Board of Standards in consultation with the Royal Australian Chemical Institute and consisting of Mr. A. E. Scott (Editor-in-Chief and Chairman), Professor A. L. J. Beckwith, Dr. B. N. Figgis, Dr. S. D. Hamann, Professor D. P. Mellor, Professor E. Ritchie, Professor I. G. Ross, and Professor D. R. Stranks.

The Organization is a signatory to the Fair Copying Declaration, details of which may be obtained from the office of the Royal Society, London.

All enquiries and manuscripts should be forwarded to:

The Editor-in-Chief,
Editorial and Publications Section, CSIRO,
Sixth Floor,
372 Albert Street,
East Melbourne, Victoria 3002

CONTENTS

Number 1, January 1969

PAGE

Spectrum of azulene. VI. Centrifugal distortion and the inertial defect. By A. J. McHugh and I. G. Ross 1

Time resolved electronic spectroscopy. I. Bimolecular rates for excimer formation. By R. Speed and B. Selinger 9

The kinetics and mechanisms of the acid-catalysed hydrolysis of t-butyl formate in aqueous solution. By R. A. Fredlein and I. Lauder 19

A thermal technique for studying moderately fast reactions in solution. By R. A. Fredlein and I. Lauder 33

N-Substituted salicylaldimine complexes of manganese(III). Synthesis, magnetism, and spectra. By A. van den Bergen, K. S. Murray, M. J. O'Connor, and B. O. West 39

Trispentafluorophenylsilane and trispentafluorophenylsilyl–metal derivatives. Preparation, and infrared and mass spectra. By R. R. Schrieke and B. O. West 49

Some studies in inorganic complexes. XXII. Reactions of nickel(II) with chelating heterocyclic bases. By A. R. Nicholson and G. J. Sutton .. 59

Deprotonation of metal complexes derived from ligands containing the 2-pyridylhydrazine residue. By B. Chiswell and F. Lions 71

Dithiolium and diselenolium compounds of the transition metals. By G. A. Heath, R. L. Martin, and I. M. Stewart 83

Magnetism, electronic spectra, and structure of transition metal alkoxides. VII. Iron(III) halo alkoxides. By G. A. Kakos and G. Winter 97

The uncatalysed, and the imidazole and *o*-mercaptobenzoic acid catalysed, hydrolysis of *p*-nitrophenyl *N*-benzyloxycarbonylglycinate. By R. W. Hay and R. J. Trethewey 109

Studies of metal halides. Magnetic properties of some molybdenum(III) binuclear complex halides. By I. E. Grey and P. W. Smith 121

Studies in chrome mordanting. III. The oxidation of wool by chromium(VI) By F. R. Hartley 129

Kinetics of hydrolysis of n-hexyl bromide, n-heptyl bromide, and n-octyl bromide in alkaline and neutral media. By Bharat Singh, Kunj Behari, and Bal Krishna 137

Bivalent cobalt complexes of 2,4,6-tri(2′-pyridyl)-1,3,5-triazine. By R. S. Vagg, R. N. Warrener, and E. C. Watton 141

Electron impact studies. XL. Negative-ion mass spectra of organosulphur compounds: thioglycollic acids and arylsulphinylamines. By J. H. Bowie, F. Duus, S.-O. Lawesson, F. C. V. Larsson, and J. Ø. Madsen 153

NUMBER 1, JANUARY 1969 (*Continued*)

PAGE

Hydroxamic acids. II. The acetylation of *O*-alkylhydroxamic acids. By M. T. W. Hearn and A. D. Ward 161

Hydroxamic acids. III. Mass spectra of substituted hydroxamic acids and cyclic imides. By J. H. Bowie, M. T. W. Hearn, and A. D. Ward 175

Synthesis of pyridocarbazoles for anti-tumour studies. By L. K. Dalton, S. Demerac, and T. Teitei 185

α-Farnesene: isolation from the natural coating of apples. By K. E. Murray .. 197

Regulators of cell division in plant tissues. VII. The synthesis of zeatin and related 6-substituted purines. By D. S. Letham, R. E. Mitchell, T. Cebalo, and D. W. Stanton 205

The tropane alkaloids from three Western Australian *Anthocercis* species. By J. R. Cannon, K. R. Joshi, G. V. Meehan, and J. R. Williams .. 221

The chemistry of pyrrolic compounds. VII. Synthesis of 5,5′-diformyldipyrrylmethanes. By R. Chong, P. S. Clezy, A. J. Liepa, and A. W. Nichol .. 229

The chemistry of pyrrolic compounds. VIII. Dipyrrylthiones. By P. S. Clezy and G. A. Smythe 239

Short Communications

The dipole moment of sulphur dioxide. By R. D. Brown, F. R. Burden, and G. M. Mohay 251

Guest–host interactions in benzil–benzoin mixed crystals. By J. C. Mackie .. 255

Square-planar complexes of copper(II), nickel(II), and palladium(II) with the ligand *N*,*N*′-bis(2-aminoethyl)-1,4-diazacycloheptane. By A. T. Phillip .. 259

Chemical and spectroscopic studies in metal β-diketonates. III. Nitration of metal benzoylacetonates and dibenzoylmethanates. By P. R. Singh and Ram Sahai 263

Nickel(II) and zinc(II) complexes of mercaptosuccinic acid. By L. J. Porter and D. D. Perrin 267

An azasteroid from cholesta-4,6-dien-3-one. By M. S. Ahmad, A. H. Siddiqui, Shafiullah, and (in part) S. C. Logani 271

Simple indole bases of *Desmodium gangeticum* (Leguminosae). By P. K. Banerjee and S. Ghosal 275

NUMBER 2, FEBRUARY 1969

Molecular orbital, increased valence, valence bond and non-pairing spatial orbital formulae for three-centre bonding. By R. D. Harcourt 279

Molecular constants of Group V hydrides by Green's function analysis. By K. Ramaswamy and S. Swaminathan 291

NUMBER 2, FEBRUARY 1969 (*Continued*)

PAGE

Vibrational frequencies of deuterated ethylenes: Green's function method. By K. Ramaswamy and V. Devarajan 299

Carbonyl halides of the Group VI transition metals. XIII. Diiodotetracarbonyls of molybdenum and tungsten and some of their derivatives. By R. Colton and C. J. Rix 305

Studies of some octathiocyanate complexes of thorium(IV) and uranium(IV). I. Infrared spectra in the ν(CN) region. By I. E. Grey and P. W. Smith .. 311

Activity coefficient assumptions in the determination of the association constant of thallium(I) chloride. IV. Spectrophotometric measurements on thallium(I) chloride solutions. By J. B. Macaskill and M. H. Panckhurst 317

The diffusion of aluminium and gallium in zinc oxide. By V. J. Norman .. 325

An analysis of the vibrational spectra of orthorhombic mercury(II) oxide and hexagonal mercury(II) sulphide. By R. P. J. Cooney and J. R. Hall .. 331

Raman spectra of mercury(II) nitrate in aqueous solution and as the crystalline hydrate. By R. P. J. Cooney and J. R. Hall 337

The heats of solution of alcohols in water. By D. M. Alexander and D. J. T. Hill 347

Helix to coil transition in poly-L-amino acids. II. N.m.r. study of model compounds and poly-γ-benzyl-L-glutamate. By J. H. Bradbury and M. D. Fenn 357

Some studies in inorganic complexes. XXIII. Reactions of copper(II) with chelating heterocyclic bases. By A. R. Nicholson and G. J. Sutton .. 373

Cyclitols. XXVIII. Methyl esters of inositol phosphates. The structure of phytic acid. By S. J. Angyal and A. F. Russell 383

Cyclitols. XXIX. Polyphosphorylation of polyols. The synthesis of *myo*-inositol pentaphosphates. By S. J. Angyal and A. F. Russell 391

Mass spectrometric studies. V. Benzylidenemalonic acid and related compounds. By J. Baldas, Q. N. Porter, and Christine C. R. Ramsay 405

Synthetic evidence for the structure of xanthorrhone. By A. J. Birch, C. J. Dahl, and A. Pelter 423

A new synthesis of phenanthroindolizidine. By B. Chauncy, E. Gellert, and K. N. Trivedi 427

The mass spectra of the furoquinol-4-one alkaloid acrophylline and quinol-2-ones related to hexahydroacrophylline. By F. N. Lahey, I. Lauder, and M. McCamish 431

The alkaloids of *Acronychia haplophylla*. By F. N. Lahey, M. McCamish, and (in part) T. McEwan 447

Some A-ring functionalized kaurenes. By E. L. Ghisalberti, P. R. Jefferies, and E. J. Middleton 455

Number 2, February 1969 (*Continued*)

Short Communications

PAGE

The dependence of kinetic isotope effects on the free energy change for proton transfer reactions. By D. B. Matthews 463

The electrometric behaviour of copper–copper-soap electrodes. By W. U. Malik and A. K. Jain 465

The enthalpy and entropy of formation of thallium(I) chloride complex ($TlCl$) in aqueous solution at 25°. By G. R. Bruce and M. H. Panckhurst .. 469

Liquid–liquid extraction of manganese, chromium, and thorium by long-chain amines from concentrated halide media. By T. M. Florence and Yvonne J. Farrar 473

Syn–anti isomerism in di-μ-chlorobis(1-acetyl-2-methylallyl)dipalladium. By C. W. Fong and W. Kitching 477

A new flavanone glucoside, poriolin, from Douglas-fir roots. By W. E. Hillis and N. Ishikura.. 483

Synthesis of 3-aminoacridine from proflavine. By R. F. Martin and J. H. Y. Tong 487

Diterpenoids. XX. 16,19-Dioxygenated labda-8,13(15)-dienes. By R. A. Marty and R. M. Carman 491

Some constituents of *Apium leptophyllum* (D.C.) F. Muell. in relation to tainting of milk. By R. J. Park and M. D. Sutherland 495

Agricultural fungicides. IV. Preparation of 2- and 4-iodo-3,5-dinitrobenzoates. By L. A. Summers and K. Lehtonen 497

Number 3, March 1969

Vibrational spectra of anhydrous lithium perchlorate in crystalline and molten states. By W. H. Leong and D. W. James 499

Transition metal complexes of diethyl cyclopentanone-2,5-diglyoxylate. By D. P. Graddon and I. T. Townsend 505

Rates of formation of isoperthiocyanic acid (5-amino-1,2,4-dithiazole-3-thione) from thiocyanate in aqueous solution. By W. H. Hall and I. R. Wilson 513

Viscosity and conductance micellar studies in molten pyridinium chloride. By H. Bloom and V. C. Reinsborough 519

Hydrolysis of amides. III. Dilute acid hydrolysis of amides of the type $R–CH_2–CONH_2$. By P. D. Bolton and G. L. Jackson 527

Transition metal complexes of substituted alkynes. IV. Some bridging alkyne–cobalt complexes. By R. S. Dickson and D. B. W. Yawney 533

NUMBER 3, MARCH 1969 (*Continued*)

PAGE

The effect of heterogeneity in composition on the determination of molecular weight distribution of block copolymers by gel permeation chromatography. By J. R. Urwin and D. N. Cramond 543

Organomercury compounds. IX. Preparations, structures, and thermal decomposition of arylmercuric arenesulphinates. By G. B. Deacon and P. W. Felder 549

Electron impact studies. XXXVII. Skeletal-rearrangement fragments in the mass spectra of alkyl and aryl isoxazoles. By J. H. Bowie, R. K. M. R. Kallury, and R. G. Cooks 563

The synthesis and degradation of 3-acylphthalides. By D. G. Buckley, E. Ritchie, and W. C. Taylor 577

The occurrence of triterpenoid, phenolic, and other compounds in the leaves of six endemic *Castanopsis* species of Hong Kong. By H. R. Arthur and Phyllis D. S. Ko 597

Reductive removal by sodium borohydride of side-chain oxygen from phenolic ketones. By K. H. Bell 601

4,5-Seco-4,6-cyclosteroids. I. Structure and properties of the diol from reductive rearrangement of 6β-bromo-4β,5-epoxy-5β-cholestan-3β-ol. By D. J. Collins, J. J. Hobbs, and R. J. Rawson 607

4,5-Seco-4,6-cyclosteroids. II. Synthesis of 4,5-seco-4,6-cyclo-6β-cholestan-5α-ol. By D. J. Collins, J. J. Hobbs, and R. J. Rawson 627

Short Communications

Shock compression and melting of solid argon. By S. D. Hamann 637

Observations of the reaction between calcium sulphate hemihydrate and deuterium oxide. By M. Goto, T. Kikuchi, and M. J. Ridge 641

The structure of triaquo[2,6-di(2′-pyridyl)-4-(pyridinium-2′-yl bromide)-1,3,5-triazine]nickel(II) bromide monohydrate. By G. A. Barclay, R. S. Vagg, and E. C. Watton 643

Hydrolysis products of dibromodiaquodiamminechromium(III) bromide. By D. A. House 647

Studies of metal halides. II. Electron-spin resonance studies of powdered halides and pseudohalides of tervalent chromium, molybdenum, and tungsten. By P. D. W. Boyd, P. W. Smith, and A. G. Wedd 653

On the formulation of biguanide complexes. By R. H. Skabo and P. W. Smith 659

The limiting molar conductances of the nitrate, silver, and chromate ions in water at 25–60°. By (the late) A. L. Jones and H. G. Linge 663

Solvent effects in the reaction of ethylmagnesium bromide and vinylmagnesium chloride with camphor. By K. Suga, S. Watanabe, and Y. Yamaguchi .. 669

Corrigenda 672

NUMBER 4, APRIL 1969

PAGE

Quantum theory of bridge group assisted charge transfer between ions in solution. By P. P. Schmidt 673

Electrochemical studies of molten salts. IV. Electromotive forces of concentration cells with transference and diffusion potentials for $PbCl_2$+KCl mixtures. By A. J. Easteal and S. J. Heron 681

The infrared and Raman spectra of phenyl acetate, phenyl-d_5 acetate, and phenyl acetate-d_3. By H. Lee and J. K. Wilmshurst 691

The ligand field spectra of trinuclear chromium(III) and iron(III), basic acetates. By L. Dubicki and R. L. Martin 701

Structure and reactivity of the arenecarbonyl cation iodotricarbonylhexamethylbenzenetungsten(II). By M. R. Snow, P. Pauling, and M. H. B. Stiddard 709

The gas-phase reaction of acetic acid with hydrogen bromide. By N. J. Daly and M. F. Gilligan 713

Thermodynamics of the dissociation of the pyridinium ion. By R. W. Green 721

The system ABXYM in nuclear magnetic resonance spectroscopy. Analysis of 3,4-dehydroprolinamide spectra by ABXYM and ABCDE methods. By T. J. Batterham, N. V. Riggs, A. V. Robertson, and W. R. J. Simpson 725

Studies related to naturally occurring acetylene compounds. XXXV. Investigation of *Erigeron* spp. from the Australian mountains and Tasmania. By J. S. Sørensen and N. A. Sørensen 751

Metal–ammonia reduction of some acyl phenols. By A. J. Birch and G. S. R. Subba Rao 761

Isothiazole chemistry. VI. Reactions of carbanions with *N*-ethyl-3-isothiazolone. By W. D. Crow and I. Gosney 765

Elaeocarpus alkaloids. I. The structures of (±)-elaeocarpine, (±)-isoelaeocarpine, and (+)-isoelaeocarpicine, three new indolizidine alkaloids from *Elaeocarpus polydactylus*. By S. R. Johns, J. A. Lamberton, A. A. Sioumis, and R. I. Willing 775

Elaeocarpus alkaloids. II. (+)-Elaeocarpiline and (−)-isoelaeocarpiline, new indolizidine alkaloids from *Elaeocarpus dolichostylis*. By S. R. Johns, J. A. Lamberton, and A. A. Sioumis 793

Elaeocarpus alkaloids. III. The structure of elaeocarpidine, a new indole alkaloid. By S. R. Johns, J. A. Lamberton, and A. A. Sioumis .. 801

4,5-Seco-4,6-cyclosteroids. III. Observations on the course of reductive rearrangement of 6β-bromo-4β,5-epoxy-5β-cholestan-3β-ol. By D. J. Collins, J. J. Hobbs, and R. J. Rawson 807

4,5-Seco-4,6-cyclosteroids. IV. Physical properties and the conformation of ring A. By D. J. Collins, J. J. Hobbs, and R. J. Rawson 821

Number 4, April 1969 (*Continued*)

Short Communications

PAGE

The relationship between crystal field and empirical molecular orbital parameters for tetragonal chromium(III) complexes. By L. Dubicki and R. L. Martin 839

Nature of the complexes of tellurium tetrachloride. By Ram Chand Paul, Krishan Kant Paul, and K. C. Malhotra 847

The solubilities of niobium and tantalum pentachlorides in titanium tetrachloride. By A. M. Long 853

The thermal pressure coefficient of dimethyl sulphoxide. By C. F. Lau, G. N. Malcolm, and D. V. Fenby 855

Electrolytic polymerization using a bipyridylium salt as a source of free radicals. By R. Arnold and D. A. Swift 859

A liquid–vapour equilibrium study of chloroform and pyridine. By T. J. V. Findlay and R. S. Kenyon 865

The synthesis of the pentapeptide related to the Gm(a) antigen of human gamma G-globulin. By D. E. Nitecki and B. Halpern 871

Corrigendum 874

Number 5, May 1969

The influence of vapour pressure on the formation of anhydrous zirconium sulphates. By I. J. Bear 875

Transition metal complexes of dithioacetylacetone and diselenoacetylacetone: syntheses, properties, and infrared spectra. By C. G. Barraclough, R. L. Martin, and I. M. Stewart 891

Carbonyl halides of the Group VI transition metals. XIV. Substitution derivatives of the trihalotetracarbonylmolybdenum(II) anions. By J. A. Bowden and R. Colton 905

Activity coefficient assumptions in the determination of association constants. V. Association of thallium(I) bromide from solubility measurements. By C. W. Childs and M. H. Panckhurst 911

Schiff base equilibria. VII. Formation and distribution of *N*-(β-hydroxyethyl)-salicylideneimine. By R. W. Green and R. J. Sleet 917

The S_N mechanism in aromatic compounds. XXXVII. Reactivity of amines. By J. Miller 921

2-Substituted and 2,6-disubstituted 1,4-benzoquinone 4-oximes ("*p*-nitrosophenols"). By R. K. Norris and S. Sternhell 935

The preparation and some reactions of the irontricarbonyl complex of thebaine. By A. J. Birch and H. Fitton 971

NUMBER 5, MAY 1969 (*Continued*)

PAGE

Photochemical rearrangement of aromatic ethers. By D. P. Kelly, J. T. Pinhey, and R. D. G. Rigby 977

A new variation of the Pschorr synthesis. By B. Chauncy and E. Gellert 993

Synthesis and reactions of di- and tetra-hydrobenz[*b*]indolizines. By T. Teitei and L. K. Dalton 997

Constituents of *Eupomatia* species. The structure and synthesis of eupomatene, a lignan of novel type from *Eupomatia laurina* R. Br. By R. S. McCredie, E. Ritchie, and W. C. Taylor 1011

A re-examination of gingerol, shogaol, and zingerone, the pungent principles of ginger (*Zingiber officinale* Roscoe). By D. W. Connell and M. D. Sutherland 1033

Insect moulting hormones: crustecdysone (20-hydroxyecdysone) from *Podocarpus elatus*. By M. N. Galbraith and D. H. S. Horn 1045

Moulting hormones of insects and crustaceans: the synthesis of 2-deoxy-3-epicrustecdysone. By M. N. Galbraith, D. H. S. Horn, E. J. Middleton, and R. J. Hackney 1059

Chemistry of the Podocarpaceae. XIX. Oxidation of some podocarpa-8,11,13-trien-19-oic acid derivatives with lead tetraacetate. By C. R. Bennett, R. C. Cambie, and W. A. Denny 1069

Nuclear magnetic resonance spectroscopy of denatured proteins. By J. H. Bradbury and N. L. R. King 1083

Short Communications

Evidence for a new form of molybdenum(II) chloride: some new phenanthroline and dipyridyl chloromolybdenum(II) complexes. By G. B. Allison, I. R. Anderson, and J. C. Sheldon 1091

Some new octahalodimolybdates. By G. B. Allison, I. R. Anderson, W. van Bronswyk, and J. C. Sheldon 1097

Reductions of acridine by metal–ammonia solutions. By A. J. Birch and H. H. Mantsch 1103

Phenanthridines. VI. The bromination of phenanthridine. By G. S. Chandler 1105

Sylvestrene dihydrochloride and carvestrene dihydrochloride. By R. M. Carman, N. V. Muraleedharan, and J. Verghese 1107

NUMBER 6, JUNE 1969

The formation of hydroxy and chloro complexes of iron(III) in chloride and perchlorate media. By A. W. Fordham 1111

Normal coordinate analysis of diacetylene and dicyanoacetylene. By K. Ramaswamy and K. Srinivasan 1123

NUMBER 6, JUNE 1969 (*Continued*)

PAGE

Trimethylaluminium: scrambling of methyl groups in the dimer and exchange with trimethylgallium. By E. A. Jeffery and T. Mole 1129

Tetraphenylborate derivatives of titanium(III). By R. S. P. Coutts, B. Kautzner, and P. C. Wailes 1137

Reactions of some conjugated diynes with cobalt carbonyl compounds. By R. S. Dickson and G. R. Tailby 1143

Organotin complexes with ethyl and benzyl sulphoxides. By W. Kitching, C. J. Moore, and D. Doddrell 1149

The configurations and p.m.r. spectra of iodo lactones and oxymercurials derived from some 5-norbornene-2-*endo*-carboxylic acids. By D. N. Ford, W. Kitching, and P. R. Wells 1157

Chemical and spectroscopic studies in metal β-diketonates. VIII. Electronic spectral studies on some trivalent 3*d* metal diketonates and their γ-substituted derivatives. By P. R. Singh and R. Sahai 1169

Kinetics of the successive chlorination of 1,2-dichloroethane in the liquid phase. By D. S. Caines, R. B. Paton, D. A. Williams, and P. R. Wilkinson 1177

Zwitterion ratios of aminobenzoic acids. By E. P. Serjeant 1189

Bromination of *p*-bromophenol. II. Catalysis by iodine and anhydrous aluminium chloride. By J. Rajaram and J. C. Kuriacose 1193

The nuclear magnetic resonance spectra of pyrrole and [*N*-D]pyrrole. By G. F. Katekar and A. G. Moritz 1199

Skeletal-rearrangement fragments in the mass spectra of β-thiopropionic acid derivatives. By J. H. Bowie, D. B. Cobb, L. Dalgaard, J. Ø. Madsen, and S.-O. Lawesson 1207

Electron impact studies. XLVIII. Specific hydrogen-rearrangements in the mass spectra of *ortho*-alkoxyanils. By J. H. Bowie and P. J. Hoffmann 1219

Photochemistry of α-diketones. II. Some photo-oxidation reactions. By G. E. Gream, J. C. Paice, and C. C. R. Ramsay 1229

Photochemistry of α-diketones. III. Some photochemical reactions of 1,1,4,4-tetramethyl-2,3-dioxotetralin in carbon tetrachloride. By G. E. Gream and J. C. Paice 1249

Photochemical syntheses. I. The formation of the naphthalene–diphenylacetylene photo-adduct. By W. H. F. Sasse 1257

The diterpenes of *Dacrydium colensoi*. VIII. Sandaracopimaradien-19-ol and 2α-carboxycolensen-2β-ol. By P. K. Grant, C. Huntrakul, and J. M. Robertson 1265

Tumour inhibitory plants. The alkaloids of *Bruguiera sexangula* and *Bruguiera exaristata* (Rhizophoraceae). By J. W. Loder and G. B. Russell .. 1271

NUMBER 6, JUNE 1969 (*Continued*)

PAGE

New aporphine alkaloids from *Beilschmiedia podagrica*. By S. R. Johns, J. A. Lamberton, A. A. Sioumis, and H. J. Tweeddale 1277

Alkaloids of *Jasminum* species (family Oleaceae). II. Isolation of a new monoterpenoid alkaloid and other constituents. By N. K. Hart, S. R. Johns, and J. A. Lamberton 1283

Synthesis of polydepsipeptides with regularly repeating unit sequences. By F. H. C. Stewart 1291

Short Communications

Dielectric absorption in methyl and ethyl esters of long-chain acids. By N. E. Robinson and H. K. Welsh 1299

A convenient method for the preparation of bis(cyclopentadienyl)mercury in high yield. By S. Lenzer 1303

The relative sign of the proton–proton couplings in diazine *N*-oxides. By A. G. Moritz and D. B. Paul 1305

Alkaloids of *Argyrodendron peralatum* (Sterculiaceae): identification of N^{a}-cinnamoylhistamine. By S. R. Johns, J. A. Lamberton, J. W. Loder, A. H. Redcliffe, and A. A. Sioumis 1309

The alkaloids of *Neolitsea pubescens* (Lauraceae). By S. R. Johns, J. A. Lamberton, and A. A. Sioumis 1311

Identification of (−)-armepavine as the major leaf alkaloid of *Cryptocarya archboldiana* (Lauraceae). By S. R. Johns, J. A. Lamberton, and H. J. Tweeddale 1313

Isolation of simple acid amides from *Allophylus cobbe* (Sapindaceae), *Homalium foetidum* (Flacourtiaceae), and from an *Aglaia* species (Meliaceae). By S. R. Johns and J. A. Lamberton 1315

Alkaloids of *Lycopodium volubile* (Lycopodiaceae). By S. R. Johns, J. A. Lamberton, and A. A. Sioumis 1317

Studies in relation to biosynthesis. XXXIX. Oosporein. By A. J. Birch and R. I. Fryer 1319

Reduction of 1-arylpyrroles by metal–ammonia solutions. By A. J. Birch, R. W. Rickards, and K. J. S. Stapleford 1321

Nicotinic and hydronicotinic acid derivatives. By E. Wenkert and G. D. Reynolds 1325

A new synthesis of egonol. By E. Ritchie and W. C. Taylor 1329

Some constituents of *Akania lucens*. By E. Krajniak, E. Ritchie, and W. C. Taylor 1331

NUMBER 6, JUNE 1969 (*Continued*)

PAGE

A correlation of callitrisic acid with podocarpic acid. By Y. S. Chuah and A. D. Ward 1333

Alcoholysis of the Merrifield-type peptide–polymer bond with an anion exchange resin. By W. Pereira, V. A. Close, E. Jellum, W. Patton, and B. Halpern 1337

Corrigendum 1340

NUMBER 7, JULY 1969

Carbonyl halides of the Group VI transition metals. XV. Complexes with bis(1,2-diphenylphosphino)ethane. By M. W. Anker, R. Colton, C. J. Rix, and (in part) I. B. Tomkins 1341

The potential dependence and upper limit of electrochemical charge transfer rates. By D. B. Matthews 1349

Shock-initiated exothermic reactions. VI. The oxidation of ethylene oxide and cyclopropane. By L. J. Drummond and J. Kikkert 1355

Thio derivatives of β-diketones and their metal chelates. XI. Stability constants of nickel(II), copper(II), zinc(II), cadmium(II), and lead(II) chelates of two monothio-β-diketones. By S. E. Livingstone and E. A. Sullivan .. 1363

Structure of donor–acceptor complexes. X. Complexes of cyanoacetamide with Lewis acids. By Ram Chand Paul and S. L. Chadha 1381

Phosphonium salts. I. The alkaline hydrolysis of some bis-phosphonium salts. By J. J. Brophy and M. J. Gallagher 1385

Phosphonium salts. II. The reaction of bis-phosphonium salts with metal hydrides. By J. J. Brophy and M. J. Gallagher 1399

Phosphonium salts. III. The action of cyanide ion and other nucleophiles on some bis-phosphonium salts. By J. J. Brophy and M. J. Gallagher .. 1405

Molecular susceptibility. The diamagnetic anisotropies of some polynuclear aromatic hydrocarbons. By R. J. W. Le Fèvre and D. S. N. Murthy .. 1415

The stereospecific solvation of non-polar organic solutes in liquid benzene. By R. J. W. Le Fèvre, D. S. N. Murthy, and P. J. Stiles 1421

Solvent effects on the rates of miscellaneous nucleophile-promoted reactions in aqueous–alcoholic solvent mixtures. By R. J. Anderson, Pearl Ang, (the late) B. D. England, Valda H. McCann, and D. J. McLennan .. 1427

Metal template reactions. I. Benzilic acid rearrangement of 2,2′-pyridil and related compounds promoted by nickel(II) and cobalt(II) ions. By D. St.C. Black and R. C. Srivastava 1439

The synthesis and properties of several annelated 1,5-di-*trans*-[10]annulenes. By A. P. Bindra, J. A. Elix, and M. V. Sargent 1449
